

Hans Merensky Hotel & Golf Estate

The famous Kruger National Park, one of Africa's largest game reserves, stretches along the entire length of the Hans Merensky Hotel & Estate's eastern boundary. Greet the African dawn on the manicured fairways of the challenging 18 hole, par 72 championship golf course, where crocodile and hippo add spice to the normal "hazards" of a good game of golf. The legendary Bob Grimsdell designed this unique course, which extends over a vast area of indigenous bush, interspersed with tranquil pools and velvet greens.

The main hotel itself with its large trees, water features and beautifully landscaped gardens, as well as the cool ambience of the traditional thatch, provides an oasis of leisure and elegance, the ultimate African dream. The Golf Clubhouse raised to overlook the 9th and 18th holes offers a view unsurpassed. Sitting on the patio having a chilled refreshment is the perfect way to relax after an exciting day on the golf course.

Air-conditioned and secluded en suite accommodation is offered in thatched chalets situated along the golf course. Awake to the sounds of birds and watch as a herd of impala graze lazily at your doorstep. Each chalet is a short walk from the golf clubhouse. In addition, air-conditioned en suite hotel rooms overlooking the hotel swimming pool and pool bar offer accommodation closer to the main hotel.
